

Teen Ballet

*1 Rhinestone Applique

Each dancer will receive one rhinestone applique to be placed on the ballet costume. There is already a smaller rhinestone applique on the costume (leave on costume/do not remove) the applique you received will be placed over/around the applique already on the costume. The applique can be glued onto the costume and please use E6000 glue. Included are some photos of where the applique should be placed. The middle of the applique you received will be lined up with the middle of the applique already on the costume. I would start with glueing the middle of the applique to the costume/applique and work your way out to the outsides of the applique.
